

KY EXCEL Quarterly Update

Get the Green Ball Rolling

KY EXCEL is partnering with the Kentucky Pollution Prevention Center to host a one-day workshop for greening sporting events and venues at small colleges and large high schools. The workshop will be held at Papa John's Cardinal Stadium in Louisville, on April 28, 2016. This specialized workshop will be beneficial for anyone involved in the sports industry, including small colleges and universities, high schools, operations managers, energy managers, public outreach personnel, environmental managers and any representatives of sporting venues.

To see an agenda and register for the event, please visit <http://dca.ticketleap.com/>.

Every little scrap helps

Did you know that that recycling one ton of steel saves 642 Kwh of energy, 1.8 barrels of oil, 10.9 million Btu's of energy and 4 cubic yards of landfill space?

In 2015, KY EXCEL members recycled 2.5 tons of steel!

Earth Day is Approaching

Don't forget that Earth Day is coming up on April 22, 2016. There are many opportunities for you and your organization to get involved. In the central Kentucky area, KY EXCEL member Bluegrass Greensource will be partnering with many communities on Main Street Clean Sweeps. For a list of events, please visit their website at

We are on the Move!

DEP staff will be moving to a new building located off Sower Boulevard in Frankfort. The new office will be built to LEED standards, which will allow DEP employees to educate guests about the building's sustainable features. For the first time ever, all of DEP staff will be located in the same building.

During the move, staff may not be as readily accessible, but will respond to your calls as quickly as possible. Once we get settled in the building, please come by for a visit!
